this book provides guidelines for those pursuing landscape projects based on integrative concepts interdisciplinarity and transdisciplinarity whether they are members of an integrative research team or individuals working on a problem that demands integration they must define terminology choose appropriate methodologies overcome epistemological barriers and cope with the high expectations of some stakeholders while encouraging others to participate at all

climate change urban sprawl abandonment of agriculture intensification of forestry and agriculture changes in energy generation and use expansion of infrastructure networks habitat destruction and degradation and other drivers of change occur at increasing rates they affect patterns and processes in forest landscapes and modify ecosystem services derived from those ecosystems consequently rapidly changing landscapes present many new challenges to scientists and managers while it is not uncommon to encounter the terms global change and landscape together in the ecological literature a global analyses of drivers of change in forest landscapes and their ecological

consequences have not been addressed adequately that is the goal of this volume an exploration of the state of knowledge of global changes in forested landscapes with emphasis on causes and effects and challenges faced by researchers and land managers initial chapters identify and describe major agents of landscape change climate fire and human activities the next series of chapters address implications of changes on ecosystem services biodiversity conservation and carbon flux a chapter that describes methodologies of detecting and monitoring landscape changes is presented followed by chapter that highlights the many challenges forest landscape managers face amidst of global change finally we present a summary and a synthesis of the main points presented in the book each chapter will contain the individual research experiences of chapter authors augmented by review and synthesis of global scientific literature on relevant topics as well as critical input from multiple peer reviewers

volume 18 in the cgl studies series entitled environmental policy and landscape architecture is the result of an international symposium held in jerusalem in march 2011 which was organised by the van leer jerusalem institute in collaboration with the centre of garden art and landscape architecture the symposium focused on how the many different facets of landscape architecture could help towards solving environmental problems sustainable development and landscaping environmental policy and the contribution of landscape architecture at a local level designing public open spaces and social sustainability spatial planning and landscape architecture in israel palestine and water and soil crisis and conservation are the key chapters in this volume the authors address a wide range of issues including the significance of religions in ideas about environmentalism in historical and current debates how palestinian society can meet challenges posed by the dynamic development of urban structures through capacity building in landscape architecture and economically meaningful strategies for soil conservation in arable fields as part of agricultural sustainability in semi arid areas a key objective of the symposium was also to determine opportunities for cooperation in the field of environment and landscaping for israelis palestinians muslims jews and christians in a region marked by huge tension and conflicts the authors are scholars of various disciplines such as landscape architecture urban planning technology assessment philosophy of science environmental communication and ecology and come from israel palestine usa norway and germany

landscape is everywhere in film but it has been largely overlooked in theory and criticism this volume of new work will address fundamental questions what kind of landscape is cinematic landscape how is cinematic landscape different from landscape painting how is landscape deployed in the work of such filmmakers as greenaway rossellini or antonioni to name just three what are differences between the use of landscape in western filmmaking and in the work of middle eastern and asian filmmakers how is cinematic landscape related to the idea of a national cinema and questions of identity the first collection on the idea of landscape and film this volume will present an impressive international cast of contributors among them jacques aumont tom conley david b clarke marcus a doel peter rist and antonio costa

this book examines the application of these ideas to bronze age burials in east crete in order to examine the historical significance of a specific pattern of changes in funerary monumentality within the early bronze age landscape tombs built above the ground were monumental landmarks such monumentality was lost during the middle late bronze age period when the dead were usually buried underground or in caves at the same time the living made their presence increasingly marked in the landscape with the erection of palaces and villas and the formation of nucleated settlements finally the re emergence of burials in the landscape during the late minoan iii period albeit in the form of modest semi subterranean chambers coincides with a fragmentation of large urban settlements and a return to modest sized communities an examination of funerary activity from a landscape perspective can provide a better understanding of the relationship between funerary monumentality and socio historical process and also the ways in which

this relationship was expressed in the landscape

she draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed
